

## Means of production

### ► Lathes

|                              |  |
|------------------------------|--|
| DOOSAN PUMA 5100XLMB         | 3068 mm between points, Ø900 mm, 60 CV         |
| MAZAK NEXUS 350 - IIM        | 1500 mm between points, Ø750 mm, 40 CV         |
| MAZAK QT-COMPACT 300ML/1000  | 1046 mm between points, Ø728 mm, 20 CV         |
| MAZAK QT-COMPACT 300MSYL/500 | Ø 340 x 500 mm between points, Ø 695 mm, 20 CV |
| MAZAK SQT-200                | 535 mm between points, Ø 525 mm, 25 CV         |
| MAZAK QTN-20HP/T-PLUS        | 429 mm between points, Ø 440 mm, 20 CV         |

### ► Milling machines, Machining and drilling centres

|                                       |  |
|---------------------------------------|--|
| JUARISTI TS3-MG12                     | 3000 x 2000 x 1800 mm, 10000 kg, 50 CV |
| JUARISTI TS1-MG6                      | 3000 x 1600 x 1500 mm, 6000 kg, 50 CV  |
| ZAYER 30KF 4000                       | 3700 x 1500 x 1500 mm, 10000 kg, 50 CV |
| LAGUN L1600                           | 1620 x 700 x 810 mm, 1200 kg, 30 CV    |
| LAGUN L1600                           | 1620 x 700 x 640 mm, 1200 kg, 30 CV    |
| LAGUN L 5AX-500 (5 SIMULTANEOUS AXES) | 800 x 700 x 645 mm, 300 kg, 22 CV      |
| LAGUN L 5AX-410 (5 SIMULTANEOUS AXES) | 650 x 700 x 645 mm, 200 kg, 22CV       |

### ► Grinding machines

|                 |   |
|-----------------|---|
| GER CU-2500     | Ø599 x 2500 mm between points, 1500 kg, 26 CV |
| GER SC-100/50   | 1000 x 500 x 580 mm, 1000kg, 24 CV            |
| KENT KGS 63 WM1 | 600 x 300 x 340 mm, 420 kg, 8 CV              |

Mecanizaciones Kieserling Fabril S.L.

## Means of production

### ▶ Electroerosion machines

ONA Mod. CM-6

500 x 250 x 240, 1.100 Kg.

### ▶ Quality Control equipment

Three-dimensional measuring machine MITUTOYO, 900 x 1000 x 600 mm

Three-dimensional machine HEXAGON, 500 x 580 x 500 mm

Section projector MITUTOYO, Mod. PJ-300

Rugosímetro MITUTOYO

Durometer OFFICE GALILEO

Height gauge TESA Micro-Hite, 0 - 350 mm and 0 - 525 mm

Height gauge MAHR 0 - 600 mm

Control equipment for detecting cracks

### ▶ Complementary equipment

Overhead cranes (7.7 tonnes), welding machines, belt saws, radial drills, etc.
